To Whom It May Concern: I have become aware of a NAB petition 04-160 which I feel should be rejected. Any attempt to limit the availability of local information should be thwarted. I find this local and immediate access to the traffic info especially helpful when traveling in a major metro area outside my home base where I am relatively unfamiliar with the road systems and more unfamiliar with local radio stations, which ones provide traffic and weather and a what point in the programming. XM provides this service and is an asset which should not be diminished in capacity in any shape or form. Thank you for your consideration of this request.
